Primer Hospital popular garifuna de Honduras

Dr. Lutehr Casdtillo heads team of Honduran Medical Students for summer program in the Garifina community.

For the second time in three years a group of 100 medical students from Honduras who are studying in Cuba will volunteer their summer vacation time to work in the local villages surrounding the Ciriboya Clinic, Ciriboya, Honduras.

Their goal? to collect data on each household in the surrounding villages.

The areas they will cover are:

Health problems

Health needs

water sanitation

living conditions

nutrition conditions of the children

vaccinations given and needed for children
