A great BIG THANKYOU goes to the folks who worked this weekend at the warehouse in Arley.

As we all know, AHMEN has to leave Arley and Ellis Waid’s generous,

benign leadership.

The above team sorted, organized, worked, cleaned up, prioritized, thru out, marked as very valuable/somewhat/low priority, etc

They presently are one full container ready for loading and plan to ship it in early Feb. If you want input, .be in touch with Ivan and Joy and be there for the loading and preloading

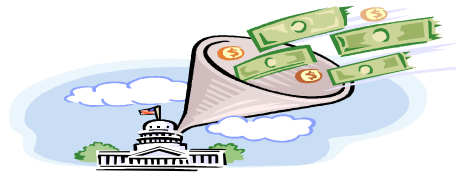

What we need now?

Two things

1. A small amount of money – Benny Rowe is talking with Ivan and Sharon Bowie now and let the rest of us know what is needed to finalize this

present container.

2. We need a new warehouse. We are asking each team leader, each project leader, each team member, each community leader, each pastor in the N.A.Conf to send out their feelers for this warehouse.

Where can we put our treasures?

Points to remember:

1. We under the United Methodist Church
2. We are interdenominational
3. We are totally tax free (50(1)c3)
4. We are self funded – i.e. don't have any money to pay the rent, but can give a wonderful write off.
5. We are in desperate need.
6. We have the ability to give any company some real good write off and great publicity.
